EDUCATION

The University of Texas at Arlington Aug. 2023 – May 2027
Bachelor of Science in Computer Science *GPA: 3.9*
Relevant Coursework: Data Structures, Object oriented programming, Computer Science, Assembly Language, Calculus

TECHNICAL SKILLS

Languages: JavaScript, Typescript, HTML/CSS, C, Java, C++, Python, Swift, C#, PHP, Kotlin
Frameworks: React, Next.js, Tailwind CSS, Bootstrap
Tech/Tools: Figma, Git, GitHub, FigJam, Adobe Creative Suite, VS Code, Unix, Postman, PyCharm, Unity

PROJECTS

acmuta.com | *TypeScript, JavaScript, HTML/CSS, Next.js, React* Aug. 2024 – Present

- Designed and developed a responsive UI for the ACM UTA website using Figma, ensuring accessibility across devices.
- Created custom GUI elements to enhance visual appeal and user engagement, applying best practices in front-end development.
- Co-led a team of 10+ developers, coordinating tasks, managing project timelines, and applying problem-solving skills to ensure timely project delivery.
- Implemented the website using TypeScript, JavaScript, Next.js, and React, optimizing for performance and scalability, demonstrating strong web development and full stack development expertise.
- Leveraged GitHub for version control, effectively managing code contributions and collaboration, ensuring project stability and quality.
- Resolved merge conflicts and deployment issues, overseeing the merging of pull requests while maintaining code quality and project stability.

codewith.mobi | *JavaScript, HTML/CSS, Tailwind CSS* Nov. 2023 – Present

- Played a key role in designing and building the landing page for codewith.mobi website to ensure it looks great and captures visitors' attention.
- Crafted appealing layouts for the "About" and "Officers" pages, effectively communicating the organization's identity and leadership team.
- Leveraged advanced CSS techniques including animations, hover effects, and gradients to create a seamless and immersive user experience throughout the website.
- Developed a special Events page that automatically updates with the latest info from MavEngage RSS feed, so visitors always see what's happening.
- Implemented JavaScript functionalities to enable sorting, filtering, and automatic addition of events to the Events page, enhancing user experience.

Movie Theater Management System | *C* Sept. 2023 – Dec 2023

- Implemented seat mapping, availability checking, and ticket purchasing logic.
- Utilized file I/O for data reading and writing, ensuring seamless integration with external files.
- Collaborated on user-friendly interface and implemented error handling for edge cases.

EXPERIENCE

President July. 2024 – Present
Association for Computing Machinery

- Managed a team of 25+ officers, overseeing event planning, workshop coordination, and operations.
- Created visually compelling posters and banners for ACM UTA, enhancing branding and promotional outreach.
- Led collaboration with university departments and external sponsors to secure resources for ACM initiatives.
- Spearheaded strategic planning for member engagement, organizing workshops, hackathons, and community-building events.
- Coordinated cross-functional teams to ensure successful execution of large-scale events, such as HackUTA.

LEADERSHIP & INVOLVEMENT

Association for Computing Machinery (ACM) | *Member, Committee Director, President* Oct 2023 – Present
HackUTA | *Organizer* Jan 2024 – Present
Datathon UTA | *Tech Lead* March 2024 – Present
MOBI | *Member, Officer, Senior Developer* Nov 2023 – Present
Cybersecurity Club (CSEC) | *Member, Officer* Oct 2023 – Aug 2024
